

Submit Your Contribution to the VIMation Journal

Submission Guidelines: <http://vimation.eu/index.php?page=guidelines>

Call for Continuous Contributions: Human Machine Interaction and Models in Production

Submission of articles in the core field of VIMation are continuously possible. These articles will be published in the next issue, if approved within the peer-review process.

Topics include: interaction technologies, interaction paradigms, patterns, model-based interaction, interactive systems in production, agent systems, IT-based production, holonic manufacturing systems, integration of human and technology, reconfigurable enterprises, process innovation etc.

Deadline: continuous; Issue 2/2008: 30th June, 2008

Calls for Special Topics

European Future Manufacturing – Deadline: 30th June, 2008

What will manufacturing in Europe look like in future? Discuss evolving technologies, new paradigms, models, information technology, methods and concepts for future manufacturing.

1. Discuss your ideas in the VIMation forum: <http://forum.vimation.eu>
A selection of clippings will be printed in the VIMation Journal.
2. Submit articles reflecting your ideas, predictions or visions (1000–6000 words).

Human Machine Interaction – Deadline: 30th June, 2008

Human Machine Interaction has a great impact as an enabler for the industry. Submit your contribution (1000–6000 words), topics include:

Interaction technologies, interaction paradigms, patterns, model-based interaction, generative user interfaces, ergonomic machine interfaces, usability, interactive systems in production, interaction with agent-based and decentralised systems.

Innovative Production Machines and Systems – Deadline: 30th June, 2008

In conjunction with the I*PROMS Conference on Innovative Production Machines and Systems VIMation Journal publishes a special topic. Topics include the whole range of production machines and systems, as described on <http://conference.iproms.org/>. Contributions oriented towards interaction and intelligent models are especially welcome.

Promote Your Conference

Send us information about forthcoming conferences in the field of Human Machine Interaction and Models in Production: conference title & sub title, date, city, country, web address, deadline for submissions. We will publish relevant information in the next issue of the VIMation Journal.
